- The decision to establish an Icelandic Thai Trade Council was made in a meeting of Thai ambassador to Iceland, **Vimon Kidchob**, **Ólafur Stephensen**, the secretary general of The Icelandic Federation of Trade, and Thailand's honorary consul general, **Anna M.P. Ólafsdóttir**, in July 2016.
- The IFT already hosted The Icelandic-Chinese Trade Council (since 1995) and The Icelandic-Indian Trade Council (since 2005).

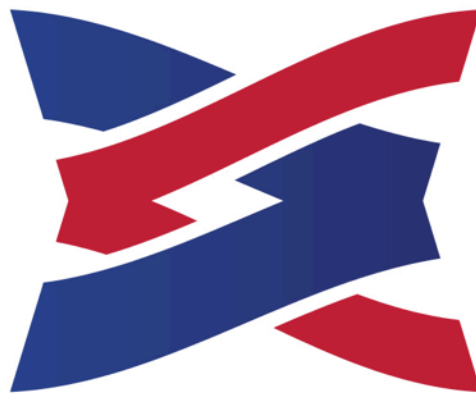

- The role of The Icelandic Thai Trade Council is to strengthen trade and business relations between Thailand and Iceland. The Council is a forum for an exchange of views and information between businesses and authorities in both countries. The Council will endeavor to strengthen the interests of its members by facilitating closer relations between businesses in both countries.

- The inauguration meeting was held on 6 September, following a seminar on Icelandic Thai trade relations.
- Present were representatives from founding member companies, five Thai ambassadors to European states, many high-level Thai officials and representatives of the Icelandic MFA.
