

### Presentation by Hans Ekström

Hans is one of Sweden's most experienced experts in warehouse automation.

He works as a Solution Design Manager at SSI Schäfer and has led projects ranging from small-scale solutions to multi-billion-dollar facilities in Sweden and abroad.

With a Master of Science in Engineering from Linköping University, Hans has worked in the USA, Germany, and Sweden since 2009.

His portfolio includes automation projects for companies such as Innes, Apotea, Coop, Dahl, and ASKO.

Hans is an expert in transforming technical possibilities into practical, implementable solutions – inspiring companies to find the right level of automation for their specific reality.

### Þátttökugjald fyrir námskeið:

Fyrir aðildafélög 28.000 kr  
Fullt gjald 36.000 kr

Skráningar berist á netfangið

# EFFICIENT WAREHOUSE AUTOMATION!

## Vörustjórnunarfélagið og Félag atvinnurekenda

bjóða uppá námskeið í vöruhúsatækni með einum reynslumesta sérfræðingi norðurlanda, Hans Ekström hönnunarstjóra frá fyrirtækinu SSI Schafer.

Námskeiðið verður haldið á ensku.

Námskeiðið verður haldið þriðjudaginn 11. nóvember 2025  
í sal Félags atvinnurekenda að Skeifunni 11, Reykjavík.

### Efni námskeiðs / Course overview:

- **What is Warehouse Automation?**  
An overview of what automation entails – from manual to fully automated solutions.  
Review of different levels and key technical components.
- **Why Automate?**  
A walkthrough of the most common reasons for automation: lower costs, improved work environment, reduced footprint, higher service levels, and sustainability. Includes casestudies from real-world projects.
- **Technologies in Practice**  
A practical overview of the most common technologies in storage, picking, and transport – including robotic solutions, AGVs, shuttles, sorting, and automated pallet flows.
- **Examples of Automation Solutions**  
A review of several case studies in Sweden, such as e-commerce, manufacturing, and food industries. Focus on design decisions and the challenges that were solved.
- **Question and discussions** After the presentation a time will be given for questions and open discussion.

**Einstakt tækifæri fyrir stjórnendur vöruhúsa að  
fá innsýn í nýjustu framfarir í vöruhúsatækni**

Nánari lýsingar eru á heimasíðu félaganna  
[www.logistics.is](http://www.logistics.is) og [www.atvinnurekendur.is](http://www.atvinnurekendur.is)

Námskeiðið stendur frá 08.45 til  
12.15.

Hámarksfjöldi í sal er 40 manns.  
Mæting 8:30, Kaffi og léttar veitingar  
verða í boði.
